

certain seriously disabled veterans who are receiving care in State veterans' homes. Earlier this year, the Committee held field hearings in my home state of Hawaii. Tom Driskill, the President and CEO of Hawaii Health Systems Corporation, testified about the soon-to-be-built State home in Hilo. He said, "The synergy of a combined Federal and State funding of the home has been the catalyst for making this dream a reality." The adjustments this legislation would make to the current cost-sharing arrangement between VA and the States, which are derived from S. 2762, legislation I introduced, may help ensure a high quality of care in State homes not only in Hawaii, but across the entire Nation.

Currently, care is provided at no cost to the veteran when VA provides institutional, long-term care services to those with service-connected disabilities rated 70 percent or higher in a VA nursing home or a private nursing care facility with which VA contracts. However, when the care is provided in a State veterans' home, VA pays only a per diem to the State, which then may bill the veteran for the remaining costs. I believe this to be unfair, and this legislation would provide for the same payment to State veterans' homes that is provided to community nursing homes which are furnishing care to these seriously disabled veterans.

I am gratified that this legislation includes extensive provisions to reauthorize, improve and enhance services for homeless veterans. I commend Senators OBAMA and BURR, both members of the Veterans' Affairs Committee, for their dedication to ensuring that comprehensive services are provided to homeless veterans. I fully support these efforts and stand with my colleagues in the battle to end homelessness among veterans.

This bill also includes a provision from a bill I introduced, S. 1537, that would authorize VA to designate at least two Multiple Sclerosis Centers of Excellence and six Parkinson's Disease Research, Education and Clinical Centers. VA centers of excellence have been the model of innovation in the delivery of highly specialized healthcare and research for chronic disease in the veteran population. Providing a statutory basis for these centers will ensure continued research and development of progressive treatments to help reduce symptoms and improve the quality of life for veterans battling with these neurological diseases.

The bill also includes a provision that would allow VA to extend eligibility of VA's State Cemetery Grants Program to tribal organizations. This change, derived from my bill, S. 2659, would allow for the establishment, expansion, and improvement of veterans' cemeteries on trust lands. If enacted, it will enable veterans living on trust lands to have an option for burial much closer to their family members and other loved ones.

This bill also includes a \$10,000 increase in the amount of supplemental insurance available to totally disabled veterans through the Service-Disabled Veterans' Insurance program. Totally disabled veterans would benefit greatly from the availability of higher supplemental coverage amounts because the current aggregate S-DVI coverage, \$30,000, is insufficient to meet disabled veterans' life insurance needs. This provision, which I authored, would increase the financial security of disabled veterans and their families.

In conclusion, I thank the Coalition to Salute America's Heroes, the National Multiple Sclerosis Society, the Parkinson's Action Network, and the National Association of State Veterans Homes for their hard work and support of provisions in this legislation.

I am pleased that our committee continues its tradition of bipartisanship. The effort that produced the final version of this legislation, vital to the continued provision of quality health care and benefits to our Nation's veterans, is just the latest example of that spirit.

I thank my colleagues in the Senate for their support of this measure.
